

Introduction

Data is the lifeblood of every business. And effectively managing, storing, and protecting your critical information is our reason for being. STS has been providing enterprise grade Information Availability solutions to the market since 2004.

Our solutions are designed to ensure that clients can adhere to the highest possible standards of corporate governance, legislative compliance and risk management associated with the retention, security, preservation and integrity of data and other digital assets. We help our clients meet their primary storage, backup, recovery, archiving and business continuity requirements through on-premise and cloud technologies.

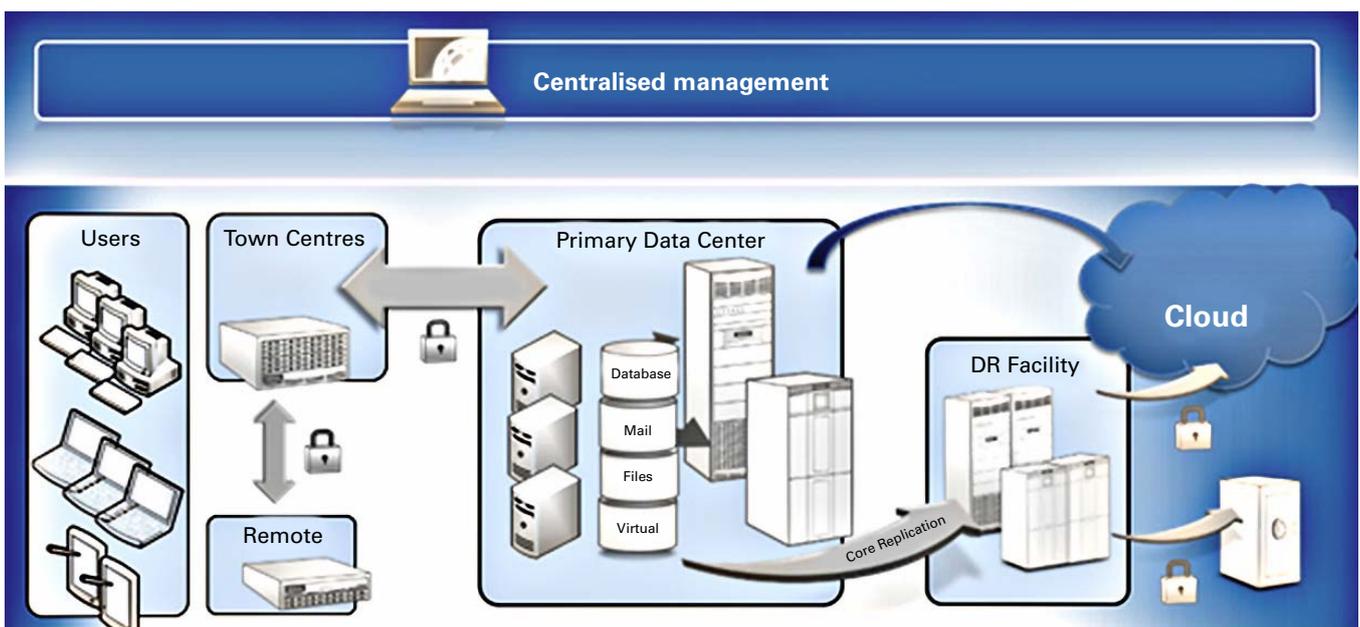

Solutions & Services

Our comprehensive portfolio of back-up and storage solutions encompasses an edge-to-core philosophy that we apply across our client spectrum – from single users to large enterprises that have to back up and secure hundreds or even thousands of terabytes of mission-critical data.

Our philosophy is simple: we take care of your data while you take care of your business. We work closely with you to understand your unique data structure and build a bespoke solution to help support your unique storage and back-up requirements.

Integrating sites, environments, technologies and time

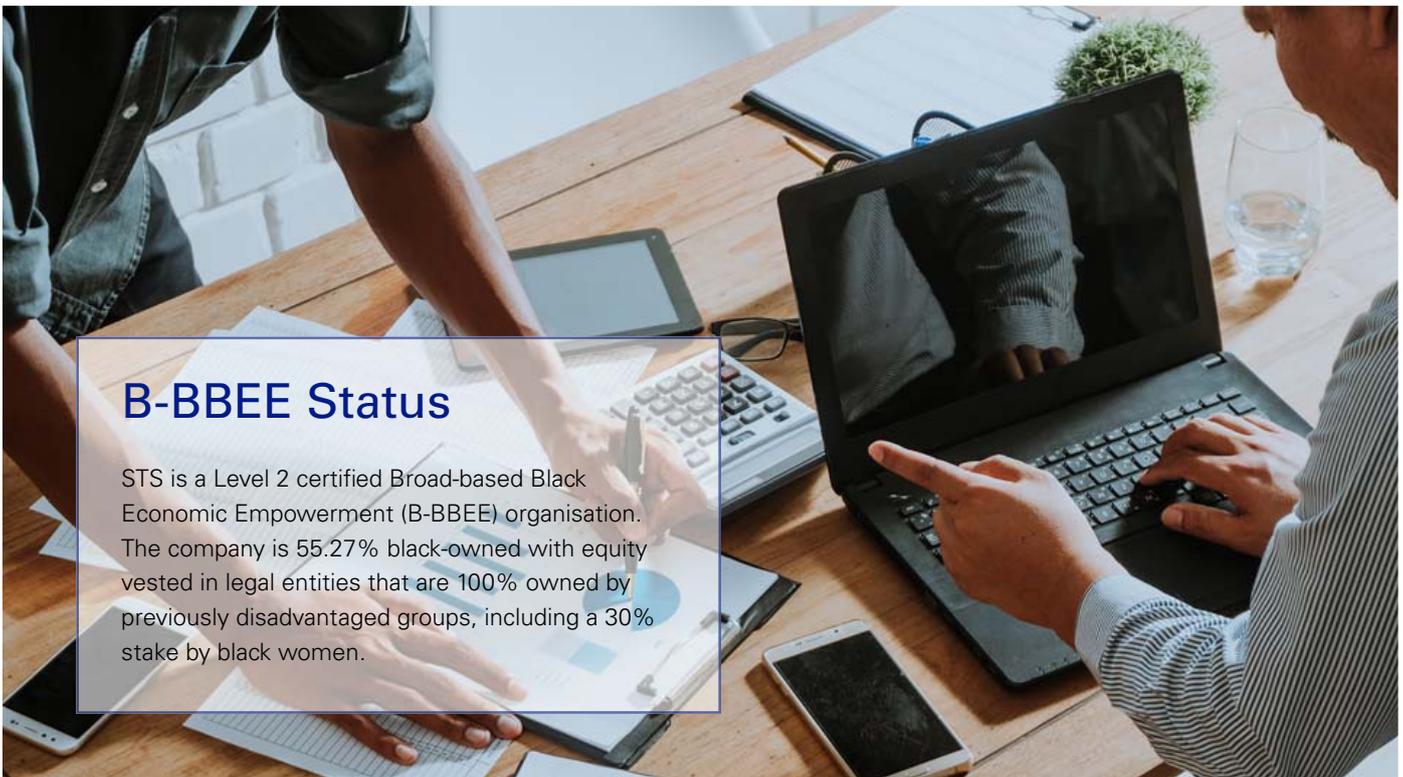

About

We are committed to providing our clients with quality solutions that deliver unrivalled data storage and protection performance.

- Our solutions are backed by more than 400 years of combined data storage experience.
- We work closely with our clients to develop bespoke data management solutions based on the needs and sizes of their businesses.

- Our client portfolio includes some of South Africa's top-tier private and public enterprises across multiple industries.
- We partner with industry-leading international technology vendors to bring you the best innovation in data management.

These vendors include:

B-BBEE Status

STS is a Level 2 certified Broad-based Black Economic Empowerment (B-BBEE) organisation. The company is 55.27% black-owned with equity vested in legal entities that are 100% owned by previously disadvantaged groups, including a 30% stake by black women.
